INDEX

AAES-JORGENSEN, E., AND R. T. HOLMAN. Essential fatty acid deficiency. I. Content of polyenoic acids in testes and heart as an indicator of EFA status, 633.
ACHAYA, K. T. See Mukherjee, S., 469.
African children, nutritive value of proteins from different sources in the feeding of, 335.
Alfalfa, an unidentified factor in which counteracts mineral oil toxicity in the rat and mouse, 575.
ALFIN-SLATER, R. B. See Mukherjee, S., 469.
ALLRED, J. B. See Jensen, L. S., 219.
ALMON, L. The vitamin B_{12} content of *Azotobacter vinelandii*, 643.
American Institute of Nutrition Awards, Invitations for Nominations for 1959, 649.
Amino acid(s) adequacy of milo (grain sorghum) for the growth of rats, 441.
—— from foods, availability of to man. I. General methods, 441; II. Valine from corn, 455.
6-Aminonicotinamide, behavorial changes in rats and guinea pigs induced by the administration of, 199.
ANDERSON, D. L., F. W. HILL AND R. RENNER. Studies of the metabolizable and productive energy of glucose for the growing chick, 561.
ANDREWS, P. N. See Vogel, G. R., 525.
Arginine-deficient chicks, cytopathological changes in liver cord cells of, 281.
Ash of unidentified growth factor supplements, phosphate availability studies with, 305.
Awards, Invitations for Nominations for 1959 American Institute of Nutrition, 649.
Azotobacter vinelandii, vitamin B_{12} content of, 643.

BARNES, R. H., AND G. FIALA. Effects of the prevention of coprophagy in the rat. II. Vitamin B_{12} requirement, 103.
BARNES, R. H., E. KWONG AND G. FIALA. Effects of the prevention of coprophagy in the rat. III. Digestibility of protein and fat, 251.
BARRON, G. P. See Swift, R. W., 89.
BAUMANN, C. A. See Gitler, C., 397.
BENTON, D. A. See Pond, W. G., 493.
BEST, M. H., AND C. H. DUNCAN. Effects of the esterification of supplemental cholesterol and sitosterol in the diet, 169.
Bitches fed semipurified diets, reproduction and lactation studies with, 211.
BRESSANI, R., AND E. T. MERTZ. Relationship of protein level to the minimum lysine requirement of the rat, 481.
BROCK, R. See Richardson, L. R., 353.
BUTTNER, W., AND J. C. MUHLER. The retention of fluoride by the skeleton, liver, heart and kidney as a function of dietary fat intake in the rat, 259.

CARIES, rat, wheat cereal diets, lysine and minerals, 619.
Carnitine deficiency, observations on the expression of, effect of zinc and potassium in the nutrition of *Tenebrio molitor*, 361.
Carotene balances on boys in Ruanda where vitamin A deficiency is prevalent, 115.
CATRON, D. V. See Hays, V. W., 63; Zucker, H., 327.
Cellulose and nitrogen levels, influence of varied, upon ration digestibility and nitrogen balance of lambs fed semipurified rations, 235.
CHESLOCK, K. E. The influence of diet upon tissue concentration of vitamin B_{12}, 53.
Chick(s), arginine-deficient, cytopathological changes in liver cord cells of, 281.
—, effect of certain necrosis-preventing factors in hemolysis of vitamin E-deficient, 397.
—, growing, effect of dietary energy concentration and age on the lysine requirement of, 25.
—, —, studies of the metabolizable and productive energy of glucose for the, 561.
— studies on the nutritive value of selenium for, 601.
— zinc deficiency in, studies on, 267.
Chicken(s), growing, significance of dietary zinc for, 503.
— maximum egg weight in, evidence for an unidentified factor necessary for, 219.
Children, African, nutritive value of proteins from different sources in the feeding of, 335.
Cholesterol esters in rat liver, effect of dietary fat on the fatty acid composition of, 469.
— and sitosterol in the diet, effects of the esterification of supplemental, 169.
Coprophagy in the rat, effects of the prevention of. II. Vitamin B_{12} requirement, 103; III. Digestibility of protein and fat, 251.
Corn, valine from. Availability to man of amino acids from foods. II., 455.
Cows, dairy, studies of the effects of dietary NaF on. III. Skeletal and soft tissue fluorine deposition and fluorine toxicosis, 293.

DEUEL, H. J., JR. See Mukherjee, S., 469.
DEUEL, HARRY JAMES, JR. (October 15, 1897 — April 17, 1956), 3.
DELONG, D. C., J. E. HALVER AND E. T. MERTZ. Nutrition of salmonoid fishes. VI. Protein requirements of chinook salmon at two water temperatures, 589.
DEMAEYER, E. M., AND H. VANDERBORGHT. A study of the nutritive value of proteins from different sources in the feeding of African children, 335.
Deoxypyridoxine or isoniazid, study of the effect upon mineral retention and liver enzyme activities of pyridoxine-deficient male rats, 547.
Dialuric acid hemolysis method for bioassay of vitamin E, 143.
Diet(s), effect of the esterification of supplemental choleterol and sitosterol in the, 169
— high versus low protein equicaloric, effect of on the heat production of human subjects, 89.
— influence of on tissue concentration of vitamin B_{12}, 53.
— semipurified, reproduction and lactation studies with bitches fed, 211.
— synthetic, sterilized by gamma rays, nutritional value of as measured by reproduction and life span of rats, 353.

— wheat cereal, rat caries, lysine and minerals, 619.
DRAPER, H. H. See Forbes, R. M., 535.
DUJACQUIER, R. See Roels, O. A., 115.
DUNCAN, C. H. See Best, M. H., 169.

EDWARDS, H. M., JR., R. J. YOUNG AND M. B. GILLIS. Phosphate availability studies with the ash of unidentified growth factor supplements, 305.
Egg weight in chickens, evidence for an unidentified factor necessary for maximum, 219.
ELLIS, W. C., AND W. H. PFANDER. The influence of varied cellulose and nitrogen levels upon ration digestibility and nitrogen balance of lambs fed semipurified rations, 235.
ELLISON, J. See Linkswiler, H., 441.
Energy of glucose for the growing chick, studies of the metabolizable and productive, 561.
ERSHOFF, B. H., AND H. J. HERNANDEZ. An unidentified factor in alfalfa which counteracts mineral oil toxicity in the rat and mouse, 575.
Erythrocytes and plasma distribution in organs and tissues of the rat, effects of semistarvation on, 317.
EVERETT, N. B. See Lasher, E. P., 317.

FAT(S), dietary, effect of on the fatty acid composition of cholesterol esters in rat liver, 469.
—— intake in the rat, retention of fluoride by the skeleton, liver, heart and kidney as a function of, 259.
— (protein and), digestibility of. Effect of the prevention of coprophagy in the rat. III., 251.
Fatty acid composition of cholesterol esters in rat liver, effect of dietary fat on, 469.
—— (essential) deficiency. I. Content of polyenoic acids in testes and heart as an indicator of EFA status, 633.
—— (*trans*) in the rat, deposition in tissues and fecal excretion of, 13.
Fellows, Invitation for Nominations for, 652.
FIALA, G. See Barnes, R. H., 103; 251.
FISHER, H. See Schwartz, H. G., 25.
FISHER, K. H. See Swift, R. W., 89.
Fishes, salmonoid, nutrition of. VI. Protein requirements of chinook salmon at two water temperatures, 589.
Fluoride, retention of by skeleton, liver, heart and kidney as a function of dietary fat intake in the rat, 259.
Fluorine deposition in skeletal and soft tissue. Studies of the effect of NaF on dairy cows. III., 293.
Food(s), amino acids from, availability of to man. I. General methods, 441: II. Valine from corn, 455.
— products, gamma-irradiated, short term rat feeding studies with. I. Frozen stored foods, 39.
FORBES, R. M., AND H. H. DRAPER. Production and study of vitamin E deficiency in the baby pig, 535.
FOX, H. M. See Linkswiler, H., 441; 455.
FRAENKEL, G. S. The effect of zinc and potassium in the nutrition of *Tenebrio molitor*, with observations on the expression of a carnitine deficiency, 361.
FRENCH, C. E. See Hartsook, E. W., 547; Swift, R. W., 89.
FRIEDMAN, L., W. WEISS, F. WHERRY AND O. L. KLINE. Bioassay of vitamin E by the dialuric acid hemolysis method, 143.
FRY, P. See Linkswiler, H., 455.
FRY, R. E. See Jensen, L. S., 219.

GESCHWENDER, D. See Linkswiler, H., 441; 455.
GILLIS, M. B. See Edwards, H. M., JR., 305.
GITLER, C., M. L. SUNDE AND C. A. BAUMANN. Effect of certain necrosis-preventing factors on hemolysis in vitamin E-deficient rats and chicks, 397.
Glucose, studies of the metabolizable and productive energy of for the growing chick, 561.
GRIFFITH, I. V. See Scott, E. M., 419.
Growth factor supplements, phosphate availability studies with the ash of unidentified, 305.
GUGGENHEIM, K. See Halevy, S., 77.
Guinea pigs, behavorial changes induced by the administration of indole-3-acetic acid and 6-aminonicontinamide, 199.

HALEVY, S., AND K. GUGGENHEIM. Metabolism of pteroylglutamic acid and liver nucleic acid levels in certain vitamin deficiencies, 77.
HALVER, J. E. See DeLong, D. C., 589.
HART, S. See Richardson, L. R., 409.
HARTSOOK, E. W. See Swift, R. W., 89.
HARTSOOK, E. W., T. V. HERSHBERGER AND C. E. FRENCH. A study of the effect of deoxypyridoxine or isoniazid upon mineral retention and liver enzyme activities of pyridoxine-deficient rats, 547.
HAUGE, S. M. See Vogel, G. R., 525.
HAYS, V. W. See Zucker, H., 327.
HAYS, V. W., V. C. SPEER AND D. V. CATRON. Application of the protein depletion-repletion technique in baby pig feeding experiments. III. Comparison of the depletion-repletion technique with conventional feeding trials, 63.
Heart, content of polyenoic acids in as an indicator of EFA status. Essential fatty acid deficiency. I, 633.
— retention of fluoride by as a function of dietary fat intake in the rat, 259.
Heat production of human subjects, effect of high versus low protein equicaloric diets on, 89.
Hemolysis in vitamin E-deficient rats and chicks, effect of certain necrosis-preventing factors on, 397.
HERNANDEZ, H. J. See Ershoff, B. H., 575.
HERSHBERGER, T. V. See Hartsook, E. W., 547; Swift, R. W., 89.
HILL, F. W. See Anderson, D. L., 561.
HILLIER, J. C. See Pond, W. G., 493.
HOLMAN, R. T. See Aaes-Jorgensen, E., 633.
HUTTON, E. M., G. M. WINDRUM AND C. C. KRATZING. Studies on the toxicity of *Indigofera endecaphylla*. II. Toxicity for mice, 429.

ICHIHARA, A. See Mills, C. F., 129.
Indigofera endecaphylla, toxicity of for mice, 429.
Indole-3-acetic acid, behavioral changes in guinea pigs, induced by the administration of, 199.
Invitation for Nominations for Fellows, 652.
Invitations for Nominations for 1959, American Institute of Nutrition Awards, 649.
Isoniazid (deoxypyridoxine or), effect of upon mineral retention and liver enzyme activities of pyridoxine-deficient male rats, 547.

JENSEN, L. S., J. B. ALLRED, R. E. FRY AND J. MCGINNIS. Evidence for an unidentified factor necessary for maximum egg weight in chickens, 219.

JOHNSON, B. C. See Mameesh, M. S., 161.
JOHNSON, O. C. See Johnston, P. V., 13.
JOHNSTON, P. V., O. C. JOHNSON AND F. A. KUMMEROW. Deposition in tissues and fecal excretion of *trans* fatty acids in the rat, 13.
JUNGHERR, E. L., J. M. SNYDER AND H. M. SCOTT. Cytopathologic changes in liver cord cells of arginine-deficient chicks, 281.

KECK, E. See Swift, R. W., 89.
Kidney changes in vitamin E-deficient rats, 183.
— retention of fluoride by as a function of dietary fat intake in the rat, 259.
KLINE, O. L. See Friedman, L., 143.
KRATHING, C. C. See Hutton, E. M., 429.
KRAYBILL, H. F. See Read, M. S., 39.
KUMMEROW, F. A. See Johnston, P. V., 13.
KWONG, E. See Barnes, R. H., 251.

LACTATION (Reproduction and) studies with bitches fed semipurified diets, 211.
Lambs fed semipurified rations, influence of varied cellulose and nitrogen levels upon ration digestibility and nitrogen balance of, 235.
LASHER, E. P., B. S. SIMMONS AND N. B. EVERETT. Effects of semistarvation on the distribution of erythrocytes and plasma in organs and tissues of the rat, 317.
LINKSWILER, H., D. GESCHWENDER, J. ELLISON AND H. M. FOX. Availability to man of amino acids from foods. I. General methods, 441.
LINKSWILER, H., H. M. FOX, D. GESCHWENDER AND P. C. FEY. Availability to man of amino acids from foods. II. Valine from corn, 455.
Liver cord cells of arginine-deficient chicks, cytopathological changes in, 281.
— enzyme activity of pyridoxine-deficient male rats. Study of the effect of deoxypyridoxine or isoniazid upon mineral retention and, 547.
— nucleic acid levels in certain vitamin deficiencies, metabolism of pteroylglutamic acid and, 77.
— rat, effect of dietary fat on the fatty acid composition of cholesterol esters in, 469.
— retention of fluoride by as a function of dietary fat intake in the rat, 259.
LONG, T. A. See Swift, R. W., 89.
Lysine, minerals, wheat cereal diets and rat caries, 619.
— minimum requirement of the rat, relationship of protein level to, 481.
— requirement of growing chicks, effect of dietary energy concentration and age on, 25.

MAGRUDER, N. D. See Swift, R. W., 89.
MAMEESH, M. S., AND B. C. JOHNSON. The effect of penicillin on the intestinal synthesis of thiamine in the rat, 161.
Man, availability of amino acids from foods to. I. General methods, 441; II. Valine from corn, 455.
MCCLURE, F. J., WITH THE TECHNICAL ASSISTANCE OF A. MULLER, JR. Wheat cereal diets, rat caries, lysine and minerals, 619.
MCGINNIS, J. See Jensen, L. S., 219.
MARTIN, J. L. See Richardson, L. R., 409.
MEHL, J. W. Harry James Deuel, Jr. (October 15, 1897 — April 17, 1956), E.
MERTZ, E. T. See Bressani, R., 481; DeLong, D. C., 589.
Metabolism of pteroylglutamic acid and liver nucleic acid levels in certain vitamin deficiencies, 77.
Mice, toxicity of *Indigofera endecaphylla* for, 429.
MILLER, R. F. See Suttie, J. W., 293.
MILLS, C. F., K. J. MONTY, A. ICHIHARA AND P. B. PEARSON. Metabolic effects of molybdenum toxicity in the rat, 129.
Milo (grain sorghum), amino acid adequacy of for the growth of rats, 493.
Mineral oil toxicity in the rat and mouse, an unidentified factor in alfalfa which counteracts, 575.
Mineral retention and liver enzyme activities of pyridoxine-deficient male rats, study of the effect of deoxypyridoxine or isoniazid upon, 547.
Molybdenum toxicity in the rat, metabolic effects of, 129.
MONTY, K. J. See Mills, C. F., 129.
MOORE, T., I. M. SHARMAN AND K. R. SYMONDS. Kidney changes in vitamin E-deficient rats, 183.
MORRISON, A. B., AND H. P. SARETT. Studies on zinc deficiency in the chick, 267.
Mouse, an unidentified factor in alfalfa which counteracts mineral oil toxicity in the, 575.
MUHLER, J. C. See Buttner, W., 259.
MUKHERJEE, S., K. T. ACHAYA, H. J. DEUEL, JR. AND R. B. ALFIN-SLATER. The effect of dietary fat on the fatty acid composition of cholesterol esters in rat liver, 469.
MULLER, A., JR. See McClure, F. J., 619.

NECROSIS-PREVENTING factors, effect of on hemolysis in vitamin E-deficient rats and chicks, 397.
NESHEIM, M. C., AND M. L. SCOTT. Studies on the nutritive effects of selenium for chicks, 601.
NEWBERNE, P. M. See O'Dell, B. L., 503.
Nitrogen balance of lambs fed semipurified rations, influence of varied cellulose and nitrogen levels upon ration digestibility and, 235.
Nominations for Fellows, Invitation for, 652.
Nucleic acid levels, (liver) in certain vitamin deficiencies, metabolism of pteroylglutamic acid and, 77.
Nutrition of salmonoid fishes. VI. Protein requirements of chinook salmon at two water temperatures, 589.
Nutritional value of a synthetic diet sterilized by gamma rays as measured by reproduction and life span of rats, 353.
Nutritive value of proteins from different sources in the feeding of African children, 335.

O'DELL, B. L., P. M. NEWBERNE AND J. E. SAVAGE. Significance of dietary zinc for the growing chicken, 503.
ONTKO, J. A., AND P. H. PHILLIPS. Reproduction and lactation studies with bitches fed semipurified diets, 211.

PEARSON, P. B. See Mills, C. F., 129.
Penicillin, effect of on the intestinal synthesis of thiamine in the rat, 161.
— (thyroprotein and), effect of on the thiamine requirement and growth of normal and hyperthyroid rats, 525.
PFANDER, W. H. See Ellis, W. C., 235.
PHILLIPS, P. H. See Ontko, J. A., 211; Suttie, J. W., 293.
Phosphate availability studies with the ash of unidentified growth factor supplements, 305.

Pigs, baby, feeding experiments, application of the protein depletion-repletion technique in. III. Comparison of the depletion-repletion technique with conventional growth feeding trials, 63.
— — production and study of vitamin E deficiency in, 535.
Plasma (erythrocytes and) in organs and tissues of the rat, effects of semistarvation on, 317.
Polyenoic acids in testes and heart as an indicator of EFA status. Essential fatty acid deficiency. I., 633.
POND, W. G., J. C. HILLIER AND D. A. BENTON. The amino acid adequacy of milo (grain sorghum) for the growth of rats, 493.
Potassium (zinc and) in the nutrition of *Tenebrio molitor*, with observations on the expression of a carnitine deficiency, 361.
Protein(s) depletion-repletion technique, application of in baby pig feeding experiments. III. Comparison of the depletion-repletion technique with conventional growth feeding trials, 63.
— evaluation of pumpkin seed meal as a source of for swine, using a depletion-repletion technique, 327.
— and fat, digestibility of. Effects of the prevention of coprophagy in the rat, 251.
— from different sources, nutritive value of in feeding of African children, 335.
— high versus low, equicaloric diets on the heat production of human subjects, 89.
— level, relationship of to the minimum lysine requirement of the rat, 481.
— requirements of chinook salmon at two water temperatures. Nutrition of salmonoid fishes. VI., 589.
Pteroylglutamic acid, metabolism of and liver nucleic acid levels in certain vitamin deficiencies, 77.
Pumpkin seed meal, evaluation of as a source of protein for swine, using a depletion-repletion technique, 327.
Pyridoxine-deficient male rats, study of the effect of deoxypyridoxine or isoniazid upon mineral retention and liver enzyme actvities of, 547.

RADIATIONS, gamma, activity of certain water-soluble vitamins after exposure in dry mixtures and in solutions, 409.
Rat(s), amino acid adequacy of milo (grain sorghum) for the growth of, 441.
— behavioral changes in, induced by the administration of indole-3-acetic acid and 6-aminonicotinamide, 199.
— deposition in tissues and fecal excretion of *trans* fatty acids in the, 13.
— dietary fat intake in, retention of fluoride by the skeleton, liver, heart and kidney as a function of, 259.
— effect of certain necrosis-preventing factors on hemolysis in vitamin E-deficient, 397.
— effects of the prevention of coprophagy in. II. Vitamin B_{12} requirement, 103; III. Digestibility of protein and fat, 251.
— effects of semistarvation on the distribution of erythrocytes and plasma in organs and tissues of the, 317.
— feeding studies (short term) with gamma-irradiated food products. I. Frozen stored foods, 39.
— interactions of B vitamins on growth of, 419.
— intestinal synthesis of thiamine in, effect of penicillin on, 161.
— liver, cholesterol esters in, effect of dietary fat on the fatty acid composition of, 469.
— metabolic effects of molybdenum toxicity in, 129.
— minimum lysine requirement of, relationship of protein level to, 481.
— normal and hyperthyroid, effect of thyroprotein and penicillin on the thiamine requirement and growth of, 525.
— pyridoxine-deficient male, study of the effect of deoxypyridoxine or isoniazid upon mineral retention and liver enzyme activities of, 547.
— reproduction and life span of, nutritional value of a synthetic diet sterilized by gamma rays, as measured by, 353.
— an unidentified factor in alfalfa which counteracts mineral oil toxicity in the, 575.
— vitamin E-deficient, kidney changes in, 183.
Rations, semipurified, influence of varied cellulose and nitrogen levels upon ration digestibility and nitrogen balance of lambs fed, 235.
Rays, gamma, nutritional value of a synthetic diet sterilized by, as measured by reproduction and life span of rats, 353.
READ, M. S., H. F. KRAYBILL AND N. F. WITT. Short-term rat feeding studies with gamma-irradiated food products. I. Frozen stored foods, 39.
RENNES, R. See Anderson, D. L., 561.
Reproduction and lactation studies with bitches fed semipurified diets, 211.
— and life span of rats, nutritional value of a synthetic diet sterilized by gamma rays, as measured by, 353.
RICHARDSON, L. R., AND R. BROCK. The nutritional value of a synthetic diet sterilized by gamma rays, as measured by reproduction and life span of rats, 353.
RICHARDSON, L. R., J. L. MARTIN AND S. HART. The activity of certain water-soluble vitamins after exposure to gamma radiations in dry mixtures and in solutions, 409.
ROELS, O. A., M. TROUT AND R. DUJACQUIER. Carotene balances on boys in Ruanda where vitamin A deficiency is prevalent, 115.
